Format results as tab-delimited text for saving or copying to Excel. Do not paste directly into wordpad or excel. Copying and then pasting into notepad, saving the page as a text file, or using "paste special" in wordpad, should work. You can download the full database in [excel format](#), including past years.

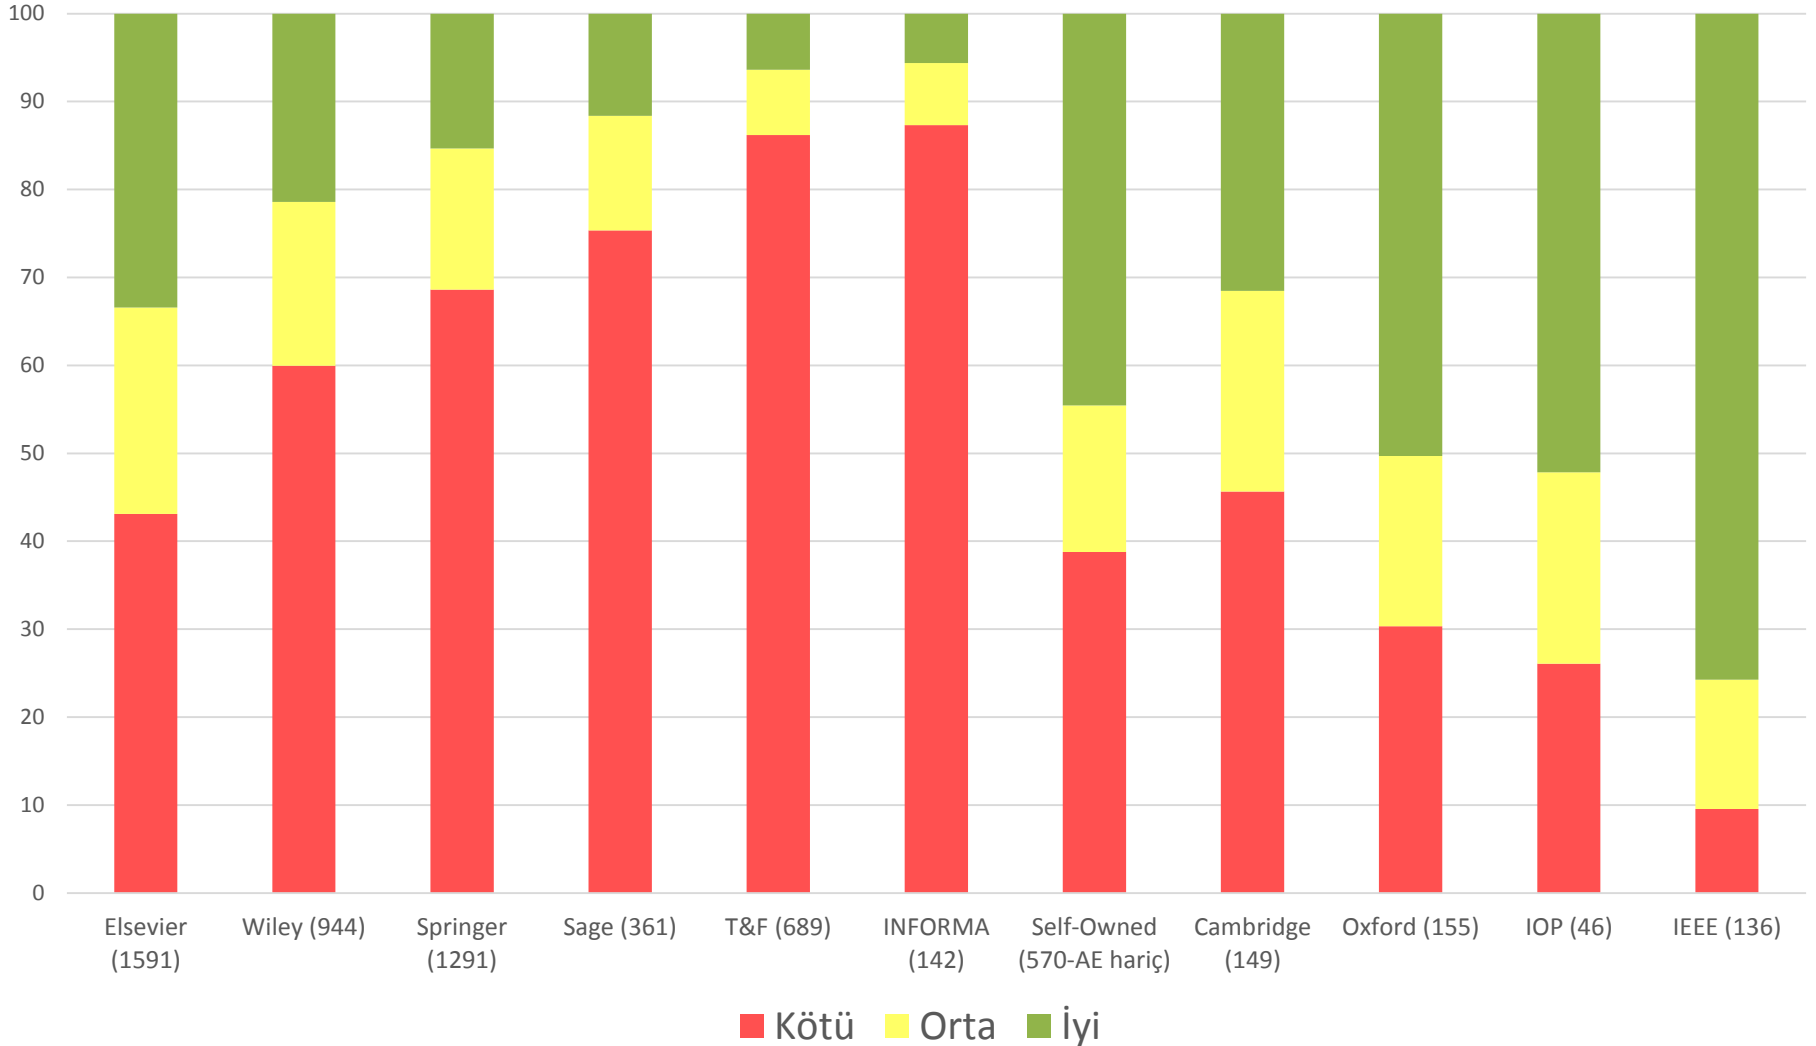

More information about journal pricing is available at [Ted Bergstrom's Journal Page](#). Also see our sibling [EigenFactor.Org](#) and our project on [Big Deal Contracts](#). Here are some of [our opinions](#).

This website represents our best attempt to compute the price per article and price per citation. Currently we use the ISI data for citations 2007-11 and 2013 prices, which are the most recent data available to us. Not all journals report information the same way, and errors are possible. You can report errors by writing to us. The coloration (red for very low value, yellow for low value, and green for good value) is computed by comparing the composite price index to the median for non-profit journals in the same subject.

# An International Workshop on Research Data Management

November 21, 2014, Hacettepe University Culture Center, Sıhhiye, Ankara, Turkey

## Speakers

The invited speakers of the international workshop are as follows (in alphabetical order):

- Dr. **Fuat Akal**, Hacettepe University Department of Computer Engineering, Ankara, Turkey  
[Life Sciences Data Management in a Research Center](#)
- Dr. **Rafael Ball**, University Library Regensburg, Germany  
[Research Data Management at the Regensburg University Library: From the Initial Data Collection to the Data Management Plan](#)
- Dr. **Wolfram Horstmann**, Göttingen State and University Library, Germany  
[Research Data Services at Universities: two examples](#)
- Prof. Dr. emeritus **Rainer Kuhlen**, Department of Computer and Information Science, University of Konstanz, Germany  
[Is There a Right to Mine \(r2m\) or Is It a Subject to Licences?](#)
- Dr. **Janna Neumann**, German National Library of Science and Technology (TIB), Germany  
[Research Data Management – Activities at University of Hanover](#)
- Prof. Dr. **Yaşar Tonta**, Hacettepe University Department of Information Management, Ankara, Turkey  
[Research Data Management: Pushing the Frontiers of Good Research Practice](#)
- **Frauke Ziedorn**, German National Library of Science and Technology (TIB), Germany  
[DOIs and DataCite – Ways to Participate](#)

# 5th International Symposium on Information Management in a Changing World

November 24-26, 2014, Antalya, Turkey

IMCW2014

## Main Theme

“**Research Data Management and Knowledge Discovery**” being the main theme of the Symposium, **IMCW2014** aims to bring together researchers, data scientists, computer engineers, data repository managers, information scientists and information professionals, data librarians and archivists to discuss the issues pertinent to research data management and open data repositories, and to contemplate on how to design and develop innovative and collaborative knowledge discovery and mining services over the research data. As organizers, we thought this is an opportune time for **IMCW2014** to tackle the challenges of research data management and knowledge discovery, ranging from research data infrastructure to metadata standards, from current research information systems to open source data management systems, from research data journals to metrics, and from knowledge discovery techniques to semantic enrichment of
